

BIO PUREMAX

biopuremax.com

Biopuremax has over 30 years of experience in the design, supply, installation, validation and operation of high-quality process and utility services.

Innovative Products & Services

for the pharmaceutical, biotechnology, foodtech and cosmetics industries.

Biopuremax Specialties

1 Sterile & aseptic production process

2 Cultivated food production process

3 Tanques de processo

4 Reactor tanks

5 CIP/SIP skid

6 OFA system

7 Gas System

8 PW/WFI water system

Elevate your efficiency with Biopuremax systems & service

- Cost-saving maintenance solutions
- Reliable systems for optimal output
- Reduced labor hours
- Zero contamination guaranteed
- No unplanned downtime
- Exceptional after-sale support

Comprehensive network connections

Leveraging decades of experience, we have established a robust network of partners to streamline your process development in:

Construction/Architecture

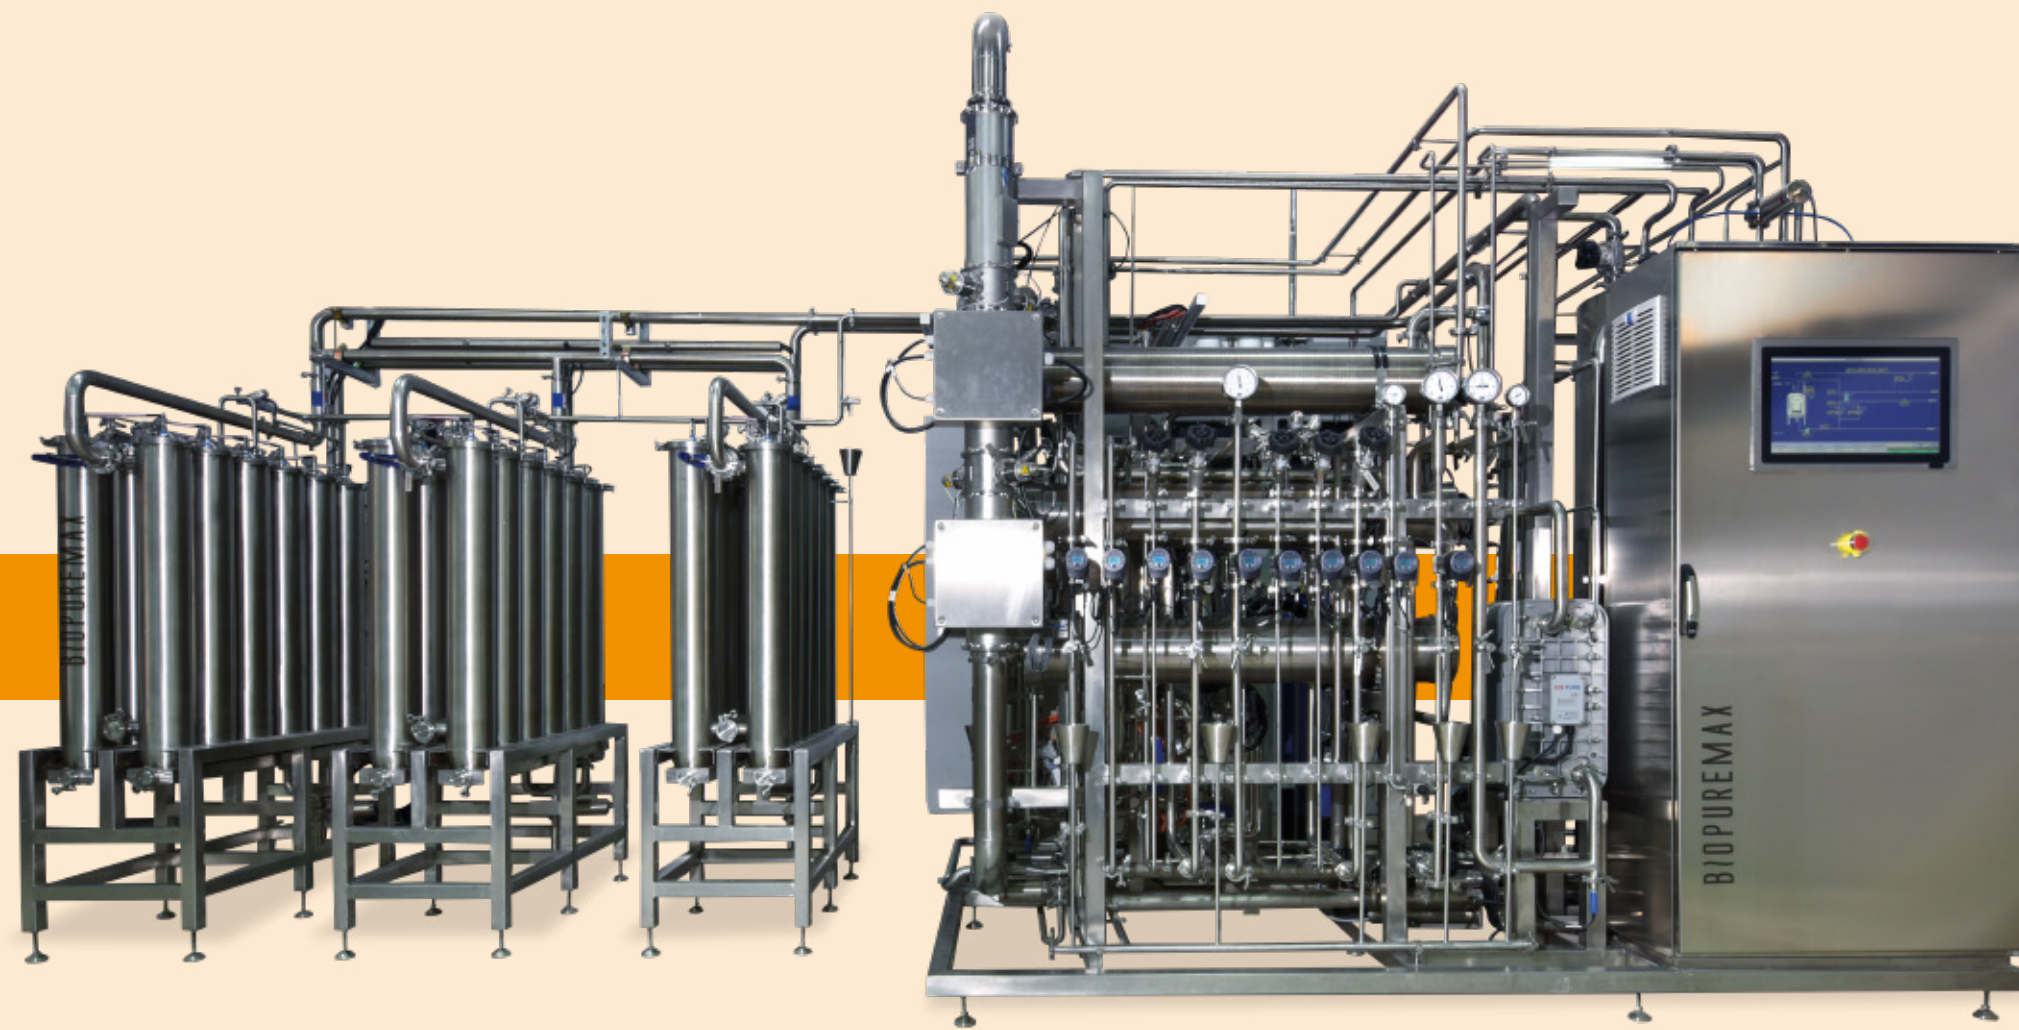

Lab Design

SOP Compilation

GMP Certification

Biopuremax's Chemical & Media Free PW/WFI system

- Electrolytic Scale Reduction (ESR™)
- Hydro Optical Dechlorination (HOD™) of free chlorine by UV irradiation
- Hot Water Sanitization
- Green Technology
- Continues Bioburden Reduction

Process & Utility Services

SIP/CIP, UF, TFF, Solids and Liquid Production

Pure Steam Generation

Vapor Compression for WFI

Sterile Production Equipment

Storage & Distribution

Biopuremax Products

CDI/CEDI Ionpure Partner

Ozone UV Destruction

UV Disinfection

Ozone Generation

Storage Tank Ozone Destruction
